

Performance characteristics:

1. Main body part material  
Insulator: PA66 WHITE UL94V-0.
2. Electrical requirements:  
Insulation resistance: 100 MΩ
3. Mechanical requirements
3. Environment specification  
Working temperature: -40°C~+105°C  
Humidity: ≤93% at 40°C
4. Packing & storing  
Method of packing: plastic bag, inner box, outer box  
Storing condition: temperature of -10°C~+40°C  
below 80% relative humidity
5. Style of installation: crimp cable installation
6. To prevent the pollution of the environment product info  
RoHS agreement: In line with the European Union RoHS.
